Millar – Campbell – Lutes Paralympic Sonar Campaign

Scott Lutes is campaigning to represent Canada in the Sonar class at the 2012 London Paralympics. The Millar/Campbell/Lutes team has a strong shot at a medal in the 3 person class.

Lutes started sailing competitively in 2007, racing in the Paralympic one person 2.4 mr class. In August 2011 he tried out for a position on the 3 person Sonar and joined the team full time in November 2011. The team has been working hard to prepare for the big push to the September games. Strong results at the World

Championship Regatta show good potential for the podium at the 2012 Paralympics.

Lutes became a wheel chair rider in 1974 after a motor vehicle accident. He grew up in Petitcodiac, living with his aunt and uncle, Brenda and Graham Newcomb, and currently resides in Montreal. Lutes has a true love for the sport, *"there's an amazing thrill in racing sailboats. Disability doesn't matter, you find ways to adapt and bring all your abilities into play."*

Although fundraising is not Lutes primary concern, he graciously accepts donations towards his efforts. That is, to win Canada a PARALYMPIC MEDAL!!!

Donations can be made through Scott's Cousin. Cheques made payable to Canadian Yachting Association. Income tax receipts can be issued.

Lutes acknowledges that the only drawback regarding this sport is the lack of funding for amateur athletes. Along with the expense of the sailboat and adapted equipment, there's the necessity of travelling and the time devoted to training.

"This year marks Canada's 145th birthday and Canada Day celebrations were held all across Fundy Royal.

During Canada Day Weekend, I attended festivities in Kingston, Alma, Quispamsis and Apohaqui. The celebrations had great community involvement and many members of the towns and villages turned out to celebrate Canada Day.

In addition to Canada's 145th birthday, 2012 is also the anniversary of the War of 1812 which represents a defining moment in our nation's history. The War helped establish our path toward becoming an independent and free country, united under the Crown.

The War was instrumental in creating Canada's armed forces. Many of our current reserve regiments in Atlantic Canada trace their origins back to this time. It was the beginning of a long and proud military history in Canada.

This year marks the Diamond Jubilee of our Head of State, Queen Elizabeth II. 2012 represents the 60th year of her reign as sovereign of Canada.

This Diamond Jubilee Year, Canadians celebrate the Queen's dedication to public service and her commitment to preserving the traditions and values of the monarchy.

2012 also represents the year that the London Summer Olympics and Paralympics will take place. I would like to offer my best wishes to all of our Canadian athletes participating in the Olympic and Paralympic Games."

Every Day People..... *submitted by Sheila Boissonneault*

A look in the life of the oldest resident of River Glade, Ernest (Poque) Gourley

On the 3rd of December 1929 at 6 years of age Poque Gourley arrived in River Glade with his father, mother, and five surviving siblings. His father purchased a General Store across the track on Sanatorium Road already stocked and ready, the family was in business. The back rooms of the store were unfinished having only paper on the walls, but soon those rooms and the three bedrooms upstairs were finished and the family settled into a good life in the village of River Glade

Pogue's mother took on the job of tending her family and the store. They sold everything from molasses to wash tubs, pails and brushes to curry for horses. Pogue remembers the first order was fifty dollars. Along with the store Pogue's father opened a slaughter house and butcher shop.

In 1941, at the age of seventeen Pogue enlisted in the military, he spent time in England, Sicily, Italy, and France. Like many of the soldiers who came back from the war he doesn't talk too much of what happened during his time, but we know he learned about survival and how to handle weapons. In 1946 he was discharged from the army and he took a job with the CNR as a charge hand and a boiler maker's helper. It was during this time that he met Jean Campbell, a widow with one child. They married and Pogue built his family a home and raised five children.

In 1952 Pogue left the CNR and worked for the Forestry, then in 1957 he brought his parent's store, later moving it to the Texaco Garage on Highway 106. Because he worked late hours at the Texaco he decided to carry a gun, although he never let it be known. He never had to use his gun, but late one night he stopped a fight in the store and he did that quickly and efficiently. Because of his experience with guns in the military those who may have tried to steal from him probably knew better than to try. He worked seven days a week there until the company told him they were raising the rent on the space for the store. Pogue didn't agree with that so in 1975 he built a building on his property and moved his store there. At that time there were four stores in the village.

After the children left home Jean decided to open a restaurant in the store and she would be the cook. She proved to be a good one and the community enjoyed her fare keeping her busy between a counter and a dining room. Pogue went into the scrap business, and he also trapped and sold rabbits going every weekend with a load of rabbits to Sydney Nova Scotia to sell them to the boats from Newfoundland. He also brought and sold furs, he had his own fox ranch of 250 females, raising silver, reds and crosses. When he couldn't sell his furs right away he would salt them. He enjoyed hunting and fishing and always had fresh game on hand.

It's men like Pogue that make our country strong, hard working men and their small business meeting the needs of the community, not to get rich and famous, just to live well. Men who love their families and share what they have with them. I am pleased to call Pogue a neighbour and friend.

Havelock Celebrates 200th Anniversary....June 30th

On June 30, people gathered in Havelock to celebrate the 200th anniversary of the settlement. It was a beautiful hot day, which started with a great breakfast at the Havelock School, and wagon rides to the heritage tour of the Upper Loyalist Cemetery.

Graymont had children's activities at their facility until 11 when the parade started. A number of kids showed their Canadian pride by decorating their bikes, wagons, and scooters in red and white. Then came the Air Cadet band, cars, and floats. First place for the parade went to Tommy Murray for the Antique Car division, The Ridge Restaurant for Commercial Floats, The Steeves' Family in the Family division, the Havelock Women's Institute won top float for Not-For-Profit, and finally Donna Maxwell in the Equestrian division.

During the Opening Ceremonies, Premier

David Alward stopped by to say a few words along with MLA Sherry Wilson.

The afternoon was filled with a Teddy Bear picnic, children's games, and bouncy castles for the little ones. In the school, The Havelock Women's Institute had exhibits on display, and thanks to John Corey, who allowed us to display his historical artifacts, everyone enjoyed seeing the old pictures of days gone by.

At 4 p.m. the Havelock Boys and Girls Club announce the "Winner" of the Kiss the Pig contest. Amy Thorne had the honour of

kissing the pig. Shortly after the Duck Race was held in the Keith Brooke on the property of Clinton and Pauline Steeves. Lots of kids got a little wet making sure all the ducks got to the finish line. Winners of the \$5 Duck Race were Glenda Finck, Jeff Mills, and Robert Dunham, while Maddy Garnett, Peyton Hopkins-Hatt, and the last name of the final winner is Dennison, sadly we don't have their first name.

In the evening Tom Burgess and friends played music to a full gym at the Havelock School, and kids were able to get together and watch a movie!

After the music and movie at the school,

people moved uptown to The Ridge Restaurant's parking lot to enjoy the sounds of Lost Connection until the fireworks went off. It was a spectacular view watching the fireworks with lightning in the distance. While the rain held off until after the fireworks, we did get a little wet, but Lost Connection didn't let that get them down, they continued until late into the night!

The Homecoming Committee of Natasha Keith, Tammy Garnett, Alicen Thorne, and Betty Keith would like to take this time to Thank Everyone who has helped us make

our Homecoming a HUGE success!! This couldn't have happened without the support of The Ridge Restaurant, Graymont, Havelock School, Havelock Lion's Club, the Alward Family Foundation, Graham and Kelly Cosman, The Keirstead Family, Burgess Transportation Services, Havelock Women's Institute, Havelock Boys and Girls Club, Cement Cartage, Neighbourhood Recycling, Havelock Baptist Church, Wishing Well, Optimum Ride, Petiscodiac ScotiaBank, Advance Savings Credit Union, Honey and Spice, Jean Coutu, Howatts, and the Petiscodiac Boy Scouts, Mrs. Dunsters, Cornhill Nursery, Mike Thorne from Flexiway Wood Products, Havelock Home and School Association, Petiscodiac Air Cadets, and the Havelock Memorial Hall Committee.

We can't forget to thank our wonderful volunteers! Thanks, Claude Thorne and Butternut Ridge Belgians who came and gave wagon rides down to the heritage tours, and to Danny Steeves for conducting those tours. Art Keith organized and directed the parade, while Robert Dunham got the old cars to come out to our parade, and Ross Osborne hosted the Soap Box Derby. Hilary Keith was our princess at the Teddy Bear picnic, while Brodie and Maddy Garnett also helped out with kids games. Angie Harvey sold ducks, Debbie Alward and Beth Francis did odd jobs all day. Finally we need to mention a BIG thank you to Mr. Doyle and Mrs. Budd from the Havelock School, who went above and beyond that day.

This event is held every 5 years, and we're already planning for our next event in 2017. On October 13 we're going to have a day shopping trip to Bangor to raise funds for the next big day! If you're interested and want more information, email havelock-homecoming2012@gmail.com, or call 534-2778

We Tried It

We tried it on the sofa,
we tried it on the chair
We tried it on the windowsill,
but we couldn't get it there.

We tried it on the couch,
then up against the wall
We even tried it on the floor
but that didn't work at all.

We tried it this way and that way
and it really made me laugh
To see how many ways
you tried to take my photograph!

A 30 year old lady went to the doctor for her annual check-up. The result was good, kind of ...

The doctor said, your heart beat is on the money, pulse is good, your cholesterol level is adequate, your colours are good and you have no fat to deal with. Now, I need to ask you a personal question. Are you single or married? I'm single she said, why do you ask? Well said the doctor, I must inform you that you're 3 weeks pregnant. Impossible, she replied. I've been living with a fella for about 6 months and he has never laid a hand on me. A kiss once in a while at best.

The doctor reached in his desk, took out a pair of binoculars, went over to the window and began scanning the horizon. Doctor, she inquired, what are you doing? The doctor says, Lady, the last time this happened, 3 wise men on camels came from the east and I gotta see this!!

Elgin News

Submitted by Elsie Steeves

Elgin W.I. visited the High Tales Alpaca Farm in Portage Value, owned and operated by Mike and Brenda Urquhart. These animals are really exotic. On the farm there are 37 Alpacas all sizes, shapes and colours. Many of the group got to pet and feed the animals some of their favorite treats. The tour continued in the house to view many articles made from the wool from the Alpacas, socks, mitts, purses, hats, insoles, etc. Brenda had some of her homemade soap on display. A heart felt thank you to the Urquharts for a wonderful tour and history of the Alpaca Family. Prior to the tour, Elgin W.I. Members enjoyed a pot luck supper at the Elgin W.I. Hall. A brief July meeting was held.

The Village of Salisbury would like to remind its residents that open fires are not allowed within the municipality, as per By-Law No. 40:

"The lighting of any open fire to dispose of dry grass, brush, hay, straw, leaves, buildings, construction materials, automobile or garbage in the municipality is prohibited.

Other than in a properly constructed incinerator approved by the Department of Environment and Local Government and its successors, no person shall light a fire outside a building for the purpose of disposing of any refuse or waste material."

DID YOU KNOW.....

Community Days first began as a simple community picnic on September 14th, 1974. As you can see, the event has certainly grown in size, now consisting of four days of fun for the entire family

HAPPY NEW BRUNSWICK DAY

The area that is now the province of New Brunswick has been populated by First Nations communities for around 6000 years. In the 1600s and 1700s, the area was colonized by the French and later the British. In 1867, New Brunswick was one of the four provinces, which formed the Canadian Confederation. New Brunswick Day has been a holiday since 1976 and the New Brunswick Day awards were introduced in 1991.

Is your group or organization holding registrations in Sept. and you want the area to know about ?? Or have a event that you would like to share Just e-mail

McHal Reunion

McHale family reunion took place the week of July 17 – 25th, 2012, when 14 family members gathered together in Petitcodiac.

Immediate family that was here are – Mary (Betty) from Boston; Helen from Manitoba; Rita from Ontario; Alice from Alberta; Judy from Manitoba. We were joined by cousins Margaret, Corena and Mary Kelly from Bangor, Maine; Dorothy Benedix from Rumford, Maine and Margaret Howes from New Hampshire. We were also surprised by a visit from another cousin, an established singer – guitarist touring in the Maritimes – Allen “Mac” McHale from Maine and he presented each of us with his CD.

The Open House, meet and greet on Sunday, July 22 was held at the Petitcodiac Legion. It was well attended. Afternoon light snacks were enjoyed followed by a visit from “Auntie Emm” with her wit. A delicious cold plate supper and lovely cake was served by Legion volunteers.

The family thanks all who contributed in any way to this event, particularly those attending the meet and greet and sharing so many good memories.

The Doctor game – W. Gifford-Jones M.D. Sorry, But What We Told You Is Wrong

Winston Churchill, Britain's wartime Prime Minister, once remarked, "To every question there is a clear, concise, coherent answer that is wrong". In medicine there are also many questions, and all too often the answers from experts are found years later to be wrong, sometimes with devastating consequences.

A report in the Archives of Internal Medicine found that 13 percent of research articles published in the prestigious New England Journal of Medicine in 2009 reported reversals in medical findings involving drugs, screening tests and invasive procedures!

For example, for years we've been told that increasing good cholesterol is a prudent move. But new research shows it does nothing to protect against heart attack, strokes and early death.

Here's another hummer. Doctors have urged men to have regular PSA testing. Now, it's reported that routine prostate-cancer screening is less likely to save lives and more likely to cause substantial harm from the treatment.

Do you ever cringe when you're with a friend who has a knuckle-cracking habit? Since we've been told this leads to arthritis, why not bite the bullet and bluntly tell them to stop it. But in a research study that reviewed hand X-rays of 215 people aged 50 to 59 the incidence of arthritis was about the same in those who did or did not crack their knuckles.

We've also been warned by health nuts, and everyone else, that for good health we must drink at least eight glasses of water a day. This feeling persists in spite of the fact that there's never been any scientific evidence of its benefit. The Institute of Medicine reports that most people get the water they need by letting thirst guide them.

No doubt many of those reading this column will be heading for the gym this week. There's little doubt that they will stretch before and after exercising. After all, this prevents injury. But does it? A study presented at the American Academy of Orthopedic Surgeons found that stretching before running had no effect in preventing injuries. However, they did conclude that doing an easy 5 minute warm-up to increase range of motion makes exercise easier.

Here's the most recent example of reversal. Today millions of North Americans are taking bisphosphonates, such as Fosamax and Aclasta, drugs designed to decrease the risk of developing brittle bones. Consumers have been told by doctors that this medication is effective and safe. But now the U.S. Food and Drug Administration reports that these drugs may not be of much advantage

for many women.

This is followed by a report in the Archives of Internal Medicine that women taking bisphosphonates are more likely to develop serious and unusual fractures of the femoral bone. This is admittedly a rare occurrence, but if it happens to you it's a 100 percent hit. What is more worrying is that these fractures are not the result of a fall or accident. Rather, the thigh bone snaps for no apparent reason. In addition, it is not known why these drugs are linked on rare occasions to degeneration of jaw bone.

A professor once started his lecture by saying, "All this has been said before, but must be said again because no one listened". I've often stressed in this column that there is no free lunch when taking prescription drugs. But not enough people listen, so I too have to say it again.

So how many more medical reversals will hit the headlines in the years to come? I have no crystal ball to know the exact number, but history shows there will be many more.

I will make one prediction, that sooner or later there will be convincing evidence that cholesterol-lowering drugs do more harm than good and may be one of the greatest medical errors of modern times. I realize it's close to heresy to make this remark, like damning Motherhood and apple pie. And I'm wise enough to know that in making such a rash statement, I too may be 100 percent wrong. Time will tell.

GORDON (BOO) KING

Inducted November 15, 2008
Competitor/Drag Racing
Boo King Racing - home of the "Nuclear Banana"

Gordon (Boo) King is one of those individuals who eat, sleep and breathes drag racing. There isn't a too fast in his vocabulary.

Boo worked three jobs when he was a teenager, this allowed him to buy his first car at age 16. A 2 door, 1957 Chev..

Next he purchased and installed a 396 cu. in. engine and 4-speed transmission in the Chev. He heard of a drag strip starting at the old Blissfield Airstrip and decided to try it. He won his Class with a time of 12.9 sec.. He was hooked. In the early '80's thought Bikes would be faster. He bought a box of bike parts and created a very fast drag bike.

On Bikes he was a winner, claiming 3 or 4 Championships. He raced tracks in Quebec, Ontario and down the east coast of the United States as far Maryland.

His wins caught the attention of National dragsters several times. His skills as a bracket racer were known far and wide.

Boo and a few friends saw the issue of illegal street racing and decided to find a positive solution. "Noonan Nationals," created to mimic the excitement of street racing within the safety net of track safety, tech, and safety crews, Boo was the first president. This greatly reduced the street racing in the Fredericton area.

The "Noonan Nationals continues to this day.

He wanted a car with a Chrome Molley frame so bought Steve Carrier's Pro-Street '68 Camaro. He thought that the bright yellow Camaro looked like a very fast banana thus the name "The Nuclear Banana". He recruited a team of old and new friends, the "Team Nuclear Banana" was formed. In 2005 Boo decided to go to Cayuga, Ontario for "Canada's Fastest Street Car Shoot out" he entered the "Pro Outlaw", this pitted his street driven Camaro against Fibreglass blown alcohol race cars. He qualified fifth and finished third.

Boo also set the Canadian street-driven record of 7.20 seconds.

On October 1st, 2005, which happened to be Boo's 50th birthday, at Miramichi Dragway he reset the record that still stands of 7.092 seconds at 199.2 miles per hour.

The "Nuclear Banana" appeared on the cover of Rpm Magazine as well as news reports by ATV News, CBC TV and CBC radio.

In 2006 he decided to try street tires and returned to Canada's Fastest Street Car Shoot out capturing the title "Real Street Outlaw". This title still stands to day.

The Nuclear Banana is Canada's Fastest Street Driven Car.

Gordon (Boo) King has been successful as an ambassador of this sport and the Maritimes. Lots of free t-shirts and interviews are given to young fans that are the future of the sport. Everywhere he races, his easy laid back style and professionalism leave a lasting and positive impression of "those guys from eastern Canada".

Boo has had a lot of fun racing and plans to have a lot more, he intends to race until he can't shift anymore. He will talk racing with anyone.

Gordon (Boo) King was presented his award by Pat Donovan inducting him into the Maritimes Motorsports Hall Of Fame.
