Happy Canada Day!

As we celebrate all things Canadian, let's take a moment to look at our communities through the eyes of our visitors.

Stop for a beat to admire the beauty and wonder like you're seeing it for the very first time.

Let us all celebrate our amazing communities and country this Canada Day.

Second Annual Bike Rodeo Held on May 29th

A second annual Bike Rodeo was held at the Maritime Motorsports Hall of Fame on May 29th. Special thanks go to all the youth that participated but especially to our event sponsor Clear Choice Autobody and Towing that provided fantastic prizes again this year. Congrats to the top fastest time of their age category 8 & Under Nicolas Hamper and 6 & Under Emmerson Ogilvie. Additional special mention to the youth volunteers Sarah Hayes and Haley Prosser from the Lorna Hicks Youth Cultural Centre. Would also like to thank the PRS School trip for their contribution to the event for providing tasty treats for us all to eat. The event was presented in partnership by the Village of Petitcodiac and the Maritime Motor Sports Hall of Fame.

From the Editor

July 1st Canada Day holiday. This holiday is always celebrated on July 1st unless it lands on a Sunday, then it is celebrated on Monday.

We are already into summer, gardens and flowers planted amid the wet and cold weather. We did have a few days that we could consider as spring. I, for one, am looking forward to the "Dog Days of Summer". The heat should feel good. Congratulations to all the graduating students, from pre-school to university. May all your holidays be filled with fun!

If you have a day that you are looking for something to do, come and take a tour of the Maritime Motorsports Museum and take a journey back in time.

A couple of things that happened in July in the past:

1. July 1792, Robert Bailey Thomas published the first issue of the Farmer's Almanac, now called "Old Farmers Almanac".
2. July 1902, the air conditioner was invented.
3. July 1937 Joe DiMaggio, baseballs great, hit his first grand slam.
4. July 1969 Astronaut Neil Armstrong was the first person to walk on the moon.

What memorable incident might happen in July 2019?

Good luck to all the racers this summer.

Happy Canada Day, enjoy all the events that have been planned for you!

Your editor,
Winona McLean

This is a project of the Elgin Women's Institute.

May, June, and July are busy months for the Elgin Eco Association. We have hired a summer student on our own dime. We were not eligible as we did not sufficiently explain how we would deal with Harassment and discrimination in the work place. This has been a real blow to our organization. It makes it very challenging to quickly move forward with the pump track. The proposal for the pump track has been approved. With the added cost of the summer student we are not sure if we can proceed. The plan was to put it in the next two weeks in June.

We had a great group park clean-up morning. The picture provided are some of the people that have worked hard to make it more presentable. It does need constant care. The way we try to go about this is to "stake your claim" Take one of the plants in your care and care for this particular plant/flower the entire summer. Some people have already done this. It needs a few more hands. Feel free to plant some edible plants in the garden boxes. Come back later to reap the benefits. It is a Public Garden.

We are looking for some musical talent to entertain during Elgin Day August 11. If you are interested please reply to elgineco@hotmail.com or call 756 2518.

Our new roster of officers for the EEA is: Directors, Jamie Mitton, Jocelyn Steeves, Angela Silverthorn and Barry Ayles. Secretary Allyson Moore, Treasurer Luke Steeves, Vice President William Silverthorn and President Moranda van Geest.

We are currently starting to find sponsors for our Mountain bike race in October. Beside sponsors we also are looking for door prizes. The Elgin Bike race is an International Bike race event. If you are willing to help find potential sponsors or like to donate a door prize please contact any of the above mentioned board members or call 756 2518 for more info.

We are now also offering a day adventure for groups of 6 to 10 people. A flyer will be out in the near future for more details. If you are interested call 756 2518 {Moranda} for more information

Summer camp is starting July 2. The program is fully booked. We are very happy to be able to offer it again this year. Special thanks to the dedicated volunteers

Our next meeting will be July 4 in the Women's Institute Hall in Elgin 7pm. Community groups cannot exist without dedicated members. Your support is vital.

The Doctor Game W. Gifford-Jones M.D.

I've Never Forgotten One Grave

Today, we face a recurrence of measles because some parents have refused to have their children vaccinated. This error reminded me of a time several years ago when I interviewed Professor Etienne-Emile Baulieu, the discoverer of the AIDS virus, at the famous Pasteur Institute in Paris. Today, parents and children should be grateful for the discoveries of this great scientist.

Before Pasteur's time, the world was ravaged by plagues. Women in childbirth died of puerperal fever, and surgical operations frequently caused death due to infection. Not too long ago infections had control over us, now we usually, though not always, have control over them.

Pasteur's initial experiments showed that cultures of organisms lost their strength with age. And by inoculating fowl with weak organisms, he could produce immunity against virulent ones. This was a huge discovery.

But skeptics did not believe his research. And since large numbers of sheep were dying of anthrax, Pasteur was challenged to conduct a dangerous public experiment that could have gone terribly wrong.

A flock of 50 sheep were assembled and 25 were marked so they could be distinguished from other sheep. Pasteur claimed, by his experiments, that the marked sheep would be saved and the others would die of anthrax.

On May 2, 1881 sheep raisers, veterinarians and doctors watched as Pasteur inoculated only the marked sheep with his vaccine. He asked that all the sheep be brought back in two weeks. This time they were all exposed to the anthrax virus. Farmers were told to bring the sheep back again in another two weeks. But only the marked sheep were alive. All the others had died. Pasteur had proven his point and the science of bacteriology had begun.

Later, shortly after he had developed a vaccine for rabies, Pasteur faced a difficult decision. A shepherd boy had been badly bitten by a rabid dog when he tried to save friends from the animal. Pasteur was asked to inject his vaccine. But he hesitated as it had never been tested on humans. But since the boy was destined to die, he was persuaded to provide the vaccine. The boy survived. Today there is a statue in the courtyard of the Pasteur Institute in Paris showing the shepherd boy struggling with the

rabid dog.

Pasteur died in 1895. Fortunately, he lived to see his work recognized around the world. Equally important, Pasteur's scientific achievements were soon followed by the discovery of germs that caused tuberculosis, diphtheria, typhoid fever, tetanus, cholera, pneumonia, and gonorrhea.

Following my interview with Professor Baulieu, he asked if I'd like to visit the tomb of Pasteur that lies below the Institute. Cemeteries and tombs have never been high on my list of priorities, but this is one grave I've never forgotten. It brought back my days as a young boy when I read the book, "Microbe Hunters", the story of Pasteur and other microbe researchers. No doubt it was one of the reasons I became a doctor.

Engraved on the walls of Pasteur's tomb are scenes of his many discoveries. It's an awe-inspiring atmosphere capturing a great moment in history. The statue is not one that celebrates a war that resulted in the loss of millions of innocent lives. Rather, one that shows how vaccination has saved millions in the past and continues to do so.

As my visit to Pasteur's tomb ended, a group of young school children entered. No doubt for a history lesson on how infectious disease can affect humanity and how Pasteur saved it.

Since then this memory makes me wonder why we have not used the same approach in Canada and the U.S. to honour great scientists. Years ago, during my pre-medical training, I worked on a research project at The Banting Institute in Toronto. Banting, discoverer of insulin, had also saved millions of lives from death due to diabetes.

But Banting is buried in a Toronto cemetery. What a wasted opportunity for history. Children cannot come to The Banting Institute, visit his tomb, and learn about historic research engraved on its walls.

Let's Eat Out

A Summary

Well, we have completed our “eating out” journey. I hope you have enjoyed hearing about all the local places to chow down, and that you have been encouraged to go to them. It has been an eye opener for me: that there are so many places between Salisbury and Sussex that serve up good food and that they do serve local products like meat, vegetables and maple syrup. I was reminded there are friendly people wherever you go. I wanted to give you a quick overview of the name of the restaurant, where it is and what we paid.

Name	Place	What we paid
Maple Tree Café	Elgin	\$20.25
Chumley's	Petitcodiac	33.24
The Ridge	Havelock	24.12
Cedar Café	Cornhill	37.72
Gasthof Old Bavarian Restaurant	Knightville	52.35
Family Favourite	Petitcodiac	31.60
The Pizza Mill	Salisbury	26.45
Country View	Steeves Mountain	26.76
Timberland	Penobquis	21.26
JJ's	Sussex	37.50
K & B	Salisbury	12.65
All Seasons	Sussex	25.63
Country Home Bakery	Sussex Corner	25.20
Taste & See	Sussex	42.36

I have endeavored to provide some background history for some of the restaurants which I found especially interesting since I am not from here. I have tried to stay positive in my evaluations, be adventurous in my eating by trying new foods to me, and include recommendations. This was assisted by my faithful partner, Charlie, who was my other pair of eyes and ears and taste buds. I stayed under the radar by only asking questions after we had paid for our meal thus maintaining fairness, and honesty.

Another part of this project was the fun I had looking for food quotes to add to the articles. So here are some more:

If you keep good food in your fridge, you will eat good food.
Errick McAdams

Those who have no time for healthy eating will sooner or later
have to find time for illness.
Edward Stanley

In a restaurant, choose a table near a waiter. Jewish Proverb

When the waitress asked if I wanted my pizza cut into four or eight slices,
I said, 'Four. I don't think I can eat eight.'
Yogi Berra

As a child my family's menu consisted of two choices: take it or leave it.
Buddy Hackett

Life expectancy would grow by leaps and bounds if green
vegetables smelled as good as bacon.
Doug Larson

Better a small serving of vegetables with love than a fattened calf with hatred.
Proverbs 15:17

For what we are about to receive, may the Lord make us truly thankful. Amen."

Stuff You Didn't Know - You Need to Know

By Mark and Ben Cullen

Mark Cullen is an expert gardener, author, broadcaster, tree advocate and Member of the Order of Canada. His son Ben is a fourth-generation urban gardener and graduate of University of Guelph and Dalhousie University in Halifax. Follow them at markcullen.com, @markcullengardening, and on Facebook.

Dorothy Dobbie is a Canadian classic. An entrepreneur, Dorothy started Pegasus Publications in Winnipeg in 1996, a member of parliament in the late 80's and early 90's and a passionate gardener. Together with Shauna Dobbie, her daughter, Dorothy is responsible for a great Canadian book called The Book of 10 Neat Things (2).

We call it “Everything you didn’t know but you need to know about plants”.

It is informative and fun.

Here are some highlights, with our editorial musings:

Basil (Ocimum basilicum). A native of India, where it was traditionally used to treat asthma, arthritis and diabetes. Growing basil can be simple. It loves heat and sun, not too much water but it does not like to dry out either: it rehydrates badly. It is very cold sensitive, among the very first plants to succumb to fall frost. Remove flower stems before they blossom and go to seed. This will encourage young, oil-rich new growth for future use in your cooking.

Basil, like verbena and geraniums, can be purchased in a variety of flavours that include lemon, cloves, peppermint, licorice and anise. It is an ambitious plant that seems unsure of what it really wants to be. We prefer plain ol’ basil.

Daisies. There are many daisies and only one Shasta daisy: leucanthemum x superbum. Don’t make the mistake that Mark made for years by pronouncing the last three letters alone, as in super-bum. The correct pronunciation is superb-um.

The word daisy comes from “days eye”, as in English daisies. Dandelions are members of the daisy family (they are European imports, brought here as a cheap substitute for coffee about 300 years ago).

Daisy is the birth-month flower of April

and the flower of the fifth wedding anniversary. It symbolizes cheerfulness, innocence, modesty, purity and sympathy. Shasta daisies, when cut in a bouquet, last a very long time, up to a couple of weeks. Our favourite variety is “Becky” as it blooms for up to 6 weeks in a sunny garden.

Pick a daisy and pull the flower petals to determine if you really love someone: she loves me, loves me not. We really hope that you don’t push up daisies any time soon. An expression Ben’s grandfather used in reference to dying.

Cedars. According to the book, Canadian cedars are not real cedars, they are members of the cypress family. Thuja occidentalis or white cedar is the most popular evergreen hedging plant in Canada. It is reliably green, winter hardy to zone 3 (Regina) and lends itself to pruning for a generation or more. It even smells good, like an evergreen should, when you prune it. Birds nest in cedars and cedar wax wings forage for mature cedar seeds late in the season. Cedars do not attract mosquitoes, despite the rumours. Swamps and low-lying land attract mosquitoes. Sometimes native cedars will grow naturally in such places. Thus, their reputation.

If your cedars turn brown, this is usually an indication that they are overwatered or too dry. You determine. If they are dead within a couple of years of planting, chances are they are Emerald Cedars bought on the cheap. It is possible to buy a 125 cm tall Oregon-grown Emerald cedar for \$25 or so. They are strip-mined down there, force-fed with goodness knows what and grown to salable size in a couple or three years, versus 5 to 7 years on Ontario farms.

The secret to successful Emerald cedar planting is to plant the more expensive, better performing Ontario grown stock. There is much more in the book. For instance, you shouldn’t eat kale more than two or three times a week or the oxalates that it contains can have a negative effect on your liver or gall bladder. Good news for those of us who hate the stuff.

Not just about plants, the book is handy if you want to learn about clouds and ladybugs, Lyme disease and deer ticks, it is all here in The Book of 10 Neat Things (2). Published by Pegasus Publications. A Canadian treasure.

Dreaming

Don't call me when I'm dreaming
 Asleep I well may be
 Be silent, hush, retreating
 Softly away from me
 Don't touch me as I slumber
 Nor draw the eastern blind
 "Old Sol" is uninvited
 Into this dream of mine
 My thoughts are far away now
 Where no one ever cries
 And nothing so unworthy
 Can trespass my two eyes
 Who's lids are the gates of heaven
 On a bridge to paradise
 Asleep with no intrusion
 To dream where no one dies
 So tiptoe as you leave me
 Nor leave the door ajar
 For when my dreaming's over
 I'll not have traveled far
 Just to the edge of someday
 Where memories hold their own
 Into the land of "could have been"
 But I must go alone

Statistics tells us that millions of dollars are spent each year to rid ourselves of annoying insects while in some countries on this planet, many consume a variety of bugs. In reality, insects do not contain additives, preservatives, food coloring or chemicals. It's reported that they are a good source of high protein and are readily available at no cost to us. They could help us reduce the money we spend on the spiraling cost of food at the supermarket! Hmmm....I just may be sold on that ! Please pass the crickets. Thank you. Now, do I want a wing or a leg first?

Let's talk play on words. It's always a fun subject! A friend in Nova Scotia shares this story with me of a mid-twenties fella at a Home Hardware Store paying for his purchases at the checkout and is acting like he's in a hurry. It is close to supper time and the clerk asks the customer.... in a rush to get home for supper are we ? Yeah, comes the reply, we're having my favorite food, garlic fingers! He then flips over his right hand so you can see the palm and tattooed on all five fingers in black letters is the word garlic! Now that's taking play on words to the extreme, me thinks.

In my early years of school, I was a straight A student however my B's were a little crooked and my C's, were not going there.

Thought for the day - If nothing sticks to teflon how do they make teflon stick to the pan?
 I took vitamins A B C D E F G but still feel like H.

Salisbury Helping Hands Food Bank Garden

Many thanks to Compass Group Canada, Bayer's Inc and Food Banks Canada for supporting the Salisbury Helping Hands Food Bank Garden. We were so excited to be one of the recipients of the Fresh Gardens and Growing Fund this year and we are using our grant to grow fruits and vegetables for our clients. We have planted ten 4x8 raised beds with all the traditional garden vegetables plus 2 beds with strawberries. The arrival of this year's strawberry crop is eagerly anticipated.

In addition to the vegetable and strawberry garden, a berry batch was planted on the land surrounding the Food Bank. 8 students from JMA High School joined the Salisbury Parks and Leisure's summer students and together they planted raspberries, blueberries,

blackberries and haskaps. Once established these berry bushes will be producing fruit for many years to come. We will also be planting 3 apple trees in the very near future. None of this would be possible without this generous grant.

It can be difficult to access fresh fruit and vegetables when you are experiencing food insecurity so these initiatives will help improve the accessibility and freshness of the fruits and vegetables we can provide to our clients.

If you are a gardener, remember to donate any extra produce to your local foodbank this summer. Maybe call ahead though, in case we already have 100 zucchini. LOL

From the Desk of Your MLA

Hon. Ross Wetmore, Gagetown - Petitcodiac

Our new PC government, sworn into office November 9th, recently concluded our second legislative session.

We started governing as we intend to continue, with a rapid-response approach focused on the needs of the people of our great province.

As soon as we became government we went right to work on the ambulance and paramedic issues. When presented with the challenge of getting homeless people in out of the cold we took action right away.

We made sure victims of this year's flooding saw a substantial increase in advance payments from \$4000 to \$15,000.

Our government brought forward important kinship legislation to protect our most vulnerable children. Families will have a greater opportunity to share in the care for children whose parents are unable.

When this kinship bill passed into law on June 14th it became a critical first step that had been years coming.

Over the course of our first 7 months in office we have balanced the budget and paid on the debt, which led to an improvement in New Brunswick's credit rating. This decision impacts the New Brunswick of the future for our children and their children.

At present, our province pays \$675 million in interest each year. This is interest on money borrowed by previous governments. It would be great to have that kind of money at our disposal to put into health and education and other important programs. Every million dollars in extra interest added to that total will be another million our next generation does not have for their social programs. I believe we should be trying to drive interest payments down, not up.

Our government increased funding for the office of the Auditor General and we have been implementing her recommendations on Worksafe as we address skyrocketing premiums.

We also passed legislation that we would not be taxing our business people more with the federal government's newly created passive income tax.

Also passing into law on June 14th was our bill to re-instate the tuition tax credit.

As of July 15th it will no longer be required to have a front license plate on vehicles under 4500 kg.

Over the summer months, as the federal election draws closer and closer, the forces in favour of carbon tax on New Brunswickers and against resource development in our province will mount an increasingly aggressive campaign.

Our PC government has been crystal clear on our position and on our resolve.

We will fight the carbon tax until the end and we will promote the safe and responsible development of our New Brunswick natural resources.

We will continue to promote a pan-Canadian corridor to get resources to market and to support our New Brunswick and Canadian economies.

I hope summer brings you the chance to spend some leisure time with family and friends.

I look forward to meeting with many of our New Brunswick Agriculture, Aquaculture and Fisheries people and their families over the next few months. As I have frequently stated, these industries have incredible future growth potential for our province.

I want to close by thanking everyone who is volunteering their time and expertise to put on our many summer fairs, festivals and community events. Some of our upcoming events include:

July 1st/19 - Canada Day activities in many communities

July 20th/19 - Community Family Fun Day in Cambridge-Narrows

July 28th-Aug. 3rd/19 - Westmorland County Agriculture Fair in Petitcodiac

Aug. 10-11/19 - Life at the Lakes in Cambridge Narrows

#Becca Told Me To

On June 14, we had a huge act of kindness shown to my little girl that I had to share.

We always go buy my daughters goalie gear from a man in Petitcodiac, that has a son who is a bit older than her. So we went to get goalie pads last night but before we left the man said Maggie I have something I would like to give you, but before I give it to you, you have to promise you will take extra special care of it. My daughter replied I promise. At this time he went down to his basement and brought up a goalie stick. He asked Maggie "do you know who Becca Scofield was"? She replied yes. (I have shared her whole story with all of my girls.) He says "well this stick was hers and given to my son by her parents and now that it is getting to small for him I know she would have liked to see it paid forward..."

It's so amazing how what she started is still going so strong and I'm so grateful for the man showing my daughter such kindness.

Oh and when I went to give her kisses last night before bed she had the stick laying in her bed so I know it touched her heart as much as it has mine.

Thanks

Maggie Kelly the daughter of Nathan and Kira Kelly of Petitcodiac

Linda Taylor

It is with great sadness the family announces the passing of Linda Marie Taylor, 70, of Pollett River, NB on Sunday June 9, 2019 at the Georges L. Dumont Hospital, Moncton, NB.

Linda's greatest joy in life was spending time with her family and friends and she will be sadly missed by her husband of 48 years, Eric and her children, Angela (Sheldon) and Paula. Linda took every opportunity to spend time with her grandchildren, and will be fondly remembered by Ethan and Avrey Alward.

She will also be missed by her mother, Velma Layden, sisters, Eileen Stapleford (Rick), Teresa Layden, Karen Layden (Barry) and brother Rick Layden (Melody), as well as her sisters-in-law, Marlene Layden, Marguerite Jackson (Gary), Shirley Tingley (Gerald), Marlene Middleton (Leigh), Monica Alward (Nelson), Beverly Taylor, Janice Taylor and brothers-in-law, Ralph Taylor (Georgie-lee), Frank Taylor (Pauline), Stuart Taylor (Darlene), Harry Taylor (Esther), as well as many other cherished family members and friends.

OBITUARIES

Sterling Constantine

It is with very heavy hearts that we announce the sudden passing of Stirling Ulysses Constantine, 86, of Salisbury on Monday, June 10, 2019 at the Moncton Hospital. Born in Harewood,

he was the son of the late William and Martha (Wright) Constantine and beloved husband of 59 years to Isabel (Colpitts) Constantine.

He will be sadly missed by his wife, Isabel; children Dawn Eagles (Ken) of Colpitts Settlement, Jason (Tammy) of Upper Coverdale, Alyson Simmons (Malcolm Jack) of Colpitts Settlement and Gaius of Vancouver; grandchildren, by whom he was lovingly known as "Pa", Robbie (Stephanie), Laura, Mark (Jenna) and Julie Eagles; Isaac, Grace and Zoë Constantine; brothers Stewart (Neta) and Stanley (Marilyn); several nieces and nephews. He was predeceased by his sister Glenna Cochrane in 1979.

Dad retired from Canada Cement Lafarge Ltd. in Havelock with over 30 years service, but that didn't slow him down. He went on to do both carpentry work and helped out at the Salisbury Funeral Home for several years, not to mention the countless hours puttering around the garage and restoring caned chairs in his basement "studio"!

Dad was very active in the community, having served as a Village Councillor and was currently the longest serving member of the Salisbury Lions Club. He attended Salisbury United Church. He loved to sing and was a member of the Moncton Gospel Male Chorus as well as the Men in Black. Now he is singing with the Heavenly Choir!

Resting at Salisbury Funeral Home (372-4800) from where visiting will take place on Thursday, June 13, 2019 from 6:00-9:00 pm and from where the Funeral Service will be held on Friday, June 14 at 11:00 am with a reception to follow. Interment in Monteagle Cemetery.

For over 50 years, Dad canvassed for the Canadian Cancer Society and was involved with the Monteagle Cemetery Co.; therefore, if so desired, we suggest memorials to either of those charities or one of your choice.

Thank You (correction)

Sincere thanks to all who offered support and expressions of sympathy following the passing of Bertha Babcock on February 27, 2019.

Thanks to those who assisted at the funeral service, especially Pastors James Hammond & Rick Mitton for their comforting words and prayers. We appreciated the Pallbearers' willingness to serve.

Thanks to the ladies of the First Elgin Baptist Church for serving the lovely lunch.

A special thank-you to Dr. R. Morton and Dr. M. Blanchard for their dedication to Bertha.

We are grateful to Bertha's neighbours & to Chris and the homemakers (especially Bonita) at the Jordan Outreach Centre for enabling Bertha to stay in her home for as long as possible. Also, thanks to the staff of the Jordan Life Care Centre who provided loving care during the last 8 weeks of her life.

To David, Alesha and staff at the Salisbury Funeral Home, we thank you for your kindness and guidance during such a difficult time.

Thirty-eight nominations were considered by the MMHF Induction Committee in making their selection; they would like to thank everyone who submitted a nomination.

The formal induction ceremony is set for November 16 at the Hotel Wingate in Dieppe, New Brunswick. Tickets are \$80.00 and available by calling 506-756-2110. A block of rooms is being held at a special group rate of \$129.00/night until October 16, 2019, based on availability. Call 1-844-854-8330 or 506-830-8330 and let them know you will be attending the MMHF function to qualify for the group rate. The Maritime Motorsports Hall of Fame Museum in Petitcodiac will host a special brunch the following morning, on November 17, starting at 10 a.m., for a cost of \$15.00/person.

The dress code is formal for this occasion.

Bios for each of the members of the Class of 2019 follow (in alphabetic order):

Joseph 'Joe' Baker raced stock cars from 1966 to 1970, travelling many miles to compete at most of the tracks around at that time. On August 3, 1972, CJCH Radio (Halifax) and announcer Jerry Lawrence paid a special tribute to Joe with "Be Kind to Joe Baker Day." In 1998, he started the Pioneer Coal 250 at Riverside Speedway - this time in a much bigger rig - the Freightliner tri-axle tractor dump truck he drove for Pioneer Coal. It was the pace vehicle and loaded with 35 tons of coal, thrilling fans who were in attendance. This tradition continued for the next three years and still is the only former race car driver to have done so.

Tom D. Borchardt built his first motorcycle at the age of 14 using a lawn mower engine and a bicycle.

He bought a new 650 BSA and spent a summer touring Britain and Europe. In 2000 he took the race riders school at Atlantic Motorsport Park. He had success in setting two world speed records at the Bonneville Salt Flats. In APG-500 and in APS-PG on a special build, partially streamlined, pushrod, gas, 500cc he set the record at 118.6 mph. Tom went to Loring, Maine and

set a record of 117.5 mph, prior to the Bonneville Salt Flats. He holds several records and in 2004 was the Maritime Vintage Road Racing champion.

Paul Chenard started creating his artwork in 2006, with Formula 1 race cars. Since then he has been the recipient of numerous awards in the Maritimes, nationally, and internationally. He is represented in the U.K. by perhaps the most important automotive art gallery in the world, the Historic Cars Art Gallery. He has written and illustrated two books "Silver Clouds" and "Ferrari in Art." His articles and artwork have been featured in many magazines. He is diverse having been commissioned to create works of art featuring motorcycles, aircraft, and cars.

Trueman Copp hasn't been without a snowmobile for over 47 years. The Southeastern New Brunswick Snowmobile Associations first executive meeting was held September 22, 1986, with Trueman as a founding member, serving as a Director for many years. He was a Team Captain with Snow-White/Blanch-Neige for nine years. In 1991, the last

Salisbury Beautification Program Summer 2019

What's New:

•24 hanging flower baskets have arrived and are now adorning Main Street, Douglas Street and River Road. We hope you enjoy the brilliant purple and yellow petunia baskets this summer.

•The 2019 Grad Banner is proudly hanging on Douglas Street next to JMA Armstrong School. Thank you to JMA art teacher, Mrs. Caroline Humar-Barrett and her grade 12 art students for designing this year's banner.

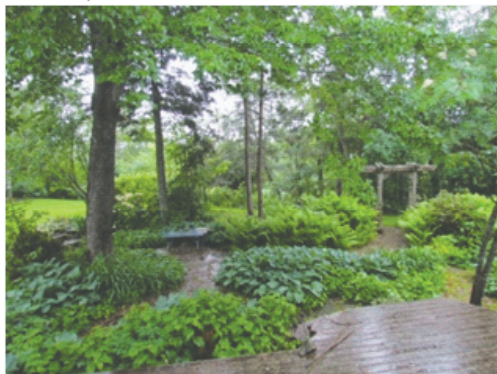

•The Salisbury Beautification Committee's latest project is the enlargement of the bed at the corner of Main Street and River Road. Many thanks to Jason Coyle, Manager, Village Works Department and Parks and Leisure summer students, Abbey and Paytra for their help.

Upcoming events:

•Salisbury Community Garden Tour- Make plans to attend our first-ever community garden tour event on Saturday, July 27th from 10:00 a.m. to 2:00 p.m. (rain or shine). During the self-guided tour, you will visit eight gardens, all of which are located within the village of Salisbury. Ticket price is \$10. Tickets are presently available at NAPA/UAP- 3092 Main Street (please see Cindy for tickets) and the Village Office in Salisbury. On tour day tickets will also be available at 30 Parkin Street, 72 Reeder Road, 56 Peter Street, and 67 Boyd Street. Specific details regarding locations of each garden will be printed on your ticket brochure. Come out and enjoy a few hours exploring and enjoying the beautiful gardens we have right here in our community.

2019 Salisbury Beautification Commemorative Tree Campaign

The gift of a tree is a wonderful way to honour or remember a loved one, to commemorate a special event such as an anniversary, birthday, or Mother's/Father's Day. Local businesses can also participate by planting a tree either on their property or within the village. Over the past three years we have planted approximately 25 mature trees along Main Street and Douglas Street. The deadline for ordering a tree this year is July 5, 2019. Trees will be planted this summer and we will have a tree dedication event in early fall.

If you would like more information about ordering a commemorative tree, please call Karen Stewart 372-9275 or email karenstewart0909@gmail.com

year for Snow-White, he was award Team Captain of the year. His snowmobile travels include NB, NS, NL, QC, ON, NH, ME, and Yellowstone National Park. He is also a member of the Moncton Corvette Club.

Ken Cunning is a car guy. To him, a car is not just a mode of transportation, it is also something to enjoy and care for. He enjoys attending car shows in Florida or Moncton or a drag race in Greenfield or Miramichi or a stock race anywhere along the eastern seaboard of North America. Since 2004, Ken has worked as general manager of Scotia Speedworld & the Maritime Pro Stock Tour when he spends every weekend from mid-May until mid-September at the track or with the tour, or both. In the off-season he has meetings with drivers and schedules events for the next year with tracks in

Maritime Motorsports Hall Fame class of 2019

New Brunswick, Prince Edward Island and Nova Scotia. He also serves as Vice President of the Maritime Motorsports Hall Of Fame for Nova Scotia.

O'Blenis Auto Body Repair & Paint Shop was established in 1960 and is still in operation by the O'Blenis family. Back in the 60s they were involved in stock car racing, it was then the new thing in town. They sponsored such well-known drivers as Walter Dunfield, Caleb Dunn, and Jerry Campbell as well as supporting the sport as a sponsor. The O'Blenis' were a great help with the building of Petty Raceway. Allan, Ray and Roy had show cars, winning many trophies at shows. The family tradition continues today with the younger generation continuing to be involved in the stock car racing.

Bill Sheppard began drag racing in 1978 and has raced constantly ever

since. He has competed with success in bracket racing in the Pro class and in the Stock Eliminator class racing. He is one of the very few Maritimers to earn a NHRA National Event Wally, at the 1994 NHRA Summernationals, arguably competing against the best racers in the world. He is always a threat to win. In his more than 40 years of drag racing Bill has raced and won all over eastern Canada and the north eastern United States. He is still racing and winning, and a true ambassador of the sport.

William (Bill) Snowdon started with motor mechanics in high school. In 1959 he received his Journeyman certification as the first apprentice in Canada to receive the Red Seal. In 1960 he enrolled in teacher training. From 1961 to 1980 he taught at the Moncton Community College. After that he worked at Dorchester Penitentiary in prison education. In 1963 he joined the Moncton Speed and Custom Club at Scoudouc Dragway doing car classifications operating the cheater kit it. In 1965 Bill received his N.H.R.A. technical director certification. In 1969 he joined the New Brunswick Antique Auto Club, served as President, South East Region Director and Historian. He has written technical articles for the Maritime Drag News and N.B.A.A.C.'s magazine, as well as "The History of the N.B. Antique Auto Club" commemorating the Clubs 50th anniversary in 2016.

Greg & Claudette Turner have been producing the Speed Sport car show in

Moncton for five decades. They have brought in many celebrity guests from NASCAR, drag racing, cars from the movies, as well as car performance products. It is this show that has helped to bring better-prepared vehicles to the local stockcar and drag tracks, as the car owners showed their vehicles to be judged. To keep the Speed Sport show to the high standards of other major shows in North America they have been affiliated with the International Show Car Association (ISAC). The show has brought many dollars into the city of Moncton. Greg and Claudette Turner have made a lasting impression in the Motorsport world of the Maritimes.

Wendall Taylor spent many years around race tracks, starting with his father as he competed at many dirt tracks in PEI. When Raceway Park opened its dirt oval in 1985 Wendell was there competing. The first year he won the Dukes championship, his second year he finished in the top three. He stopped driving when the team moved to the modified division, instead he crewed for drivers competing with MASCAR, the Maritime Pro Stock Tour, and the Moosehead GrandPrix. Wendell also sponsored drivers as owner of Wendell Taylors Garage. He was the go-to guy for fixing what other people couldn't.

He is a member of the PEI Antique Auto Club and is the Inspection Tech for antique cars & trucks. He has restored many of the antique cars he owns, and he also dabbled in drag racing.
