Jason Ries, Glen Spence, Doug McArthur, MJ Webster, Tom Dobson, Don Lavoie, Brad McCabe, Harry & Cody Wheaton, Gary Lounsbury

## From the Editor

My prayer is that by next month's issue, June, that this Covid is running away and we can get the summer started with some normality.

Remembering Mother on May 9th with love. Maybe we can celebrate it better this year than last, but still follow the rules to keep us healthy.

May 24th is Victoria Day holiday. According to the federal government, May 24 was first declared a holiday by the legislature of the Province of Canada in 1845 to celebrate Queen Victoria's birthday. When Queen Victoria died in 1901, Canada's parliament officially named the holiday Victoria Day. In 1952 the Canadian government decided to have it exclusively on a Monday (making for a long weekend) meaning that if May 24th was not a Monday the holiday would be held on the Monday immediately preceding the 24th.

May 15 is the Salad plate take-out at the Maritime Motorsports, tickets are on sale for \$10.00 per meal. Sponsored by the Petitcodiac Historical and Cultural Society and Maritime Motorsports Hall of Fame.

Business hours at the Maritime Motorsports, 5 Hooper Lane for the month of May is Monday - Friday from 10:00AM - 4:30PM.

My advice is for everyone to get their vaccine shot, to protect your loved ones.

From your editor,  
Winona McLean

## Even the Horses like to go to Sugar Camps when Maple Sap Runs

Printed in the telegraph Journal, Saint John, Monday, April 25, 1938

By Ian Sclanders

A hole in the ceiling, just above the stove, had been boarded over. Charles Stewart said Arnold Stewart used to flip flapjacks through it. The flapjacks would disappear through the hole and then come floating down again and land on the griddle as neat as anything.

Arnold Stewart poured more buckwheat and buttermilk batter on the griddle and said the real reason the hole had been there was that the sugar hands were lazy. Cold morning they would lie in their bunks on the second floor of the two-storey camp while he cooked breakfast - flapjacks, of course - and he would toss the flapjacks through the hole and they would reach out and catch them.

"They got so they wanted breakfast in bed all the time." He said, "so decided to board the hole over and put a stop to it."

Arnold, whose flapjacks are a work of art, scooped another of them off the griddle and onto the steaming golden mound on the platter, and he shook around the sizzling pork chops in the frying pan.

"Okay, folks, come and get it," he called. And those were the last words anybody spoke for a long time. Nobody could talk and do justice to buckwheat flapjacks and pork chops and maple syrup still warm from the evaporator, and buttermilk so cold it had little splinters of ice in it. All you could do

was eat - and eat and eat.

And when you thought you were all through eating and had settled back with your belt let out a couple of notches, you found out you had just started. There was still the dessert to come - the white smooth maple cream and the yellow maple candy.

Typical of many

Such is hospitality at a typical New Brunswick sugar camp - at one of dozens of camps where men and just now concluding operations for the season

The camp we visited - this was a short time ago when sapping activity was at its peak - was that of William A. Stewart on Gowland's Mountain in Albert county, a few miles from the village of Elgin. The road up the mountain still lay under deep snow. Arnold and Charles - William Stewart's sons - hitched a double team to a sleigh and produced enough blankets to outfit an army and the horses, faced with that stiff climb, seemed actually pleased about it.

They were like bird dogs about to be taken out hunting. We found out the reason afterwards. Going up the hill you could see, here and there, white clouds of steam curling up over the woods. "Sugar camps," Arnold explained. "They're boiling off."

When you got to the brow of the hill you hauled half a dozen blankets around you - the wind up there would make a Eskimo shiver - and then the horses,

"Queen" and "Bess," picked their way in along a woodland trail and all the trees on either side were maples and on each maple a clean, covered bucket was suspended from a metal spike.

"How many trees do you tap?" Charles answered the question.

Tap 100,000 trees.

"Somewhere around 3,300," he said. "There are about 100,000 trees tapped in Albert County and 60,000 just in this Elgin district. They give an average of a pound of sugar each."

On this basis about 40 tons of maple sugar, the best of it is called maple cream because of its whiteness and its smoothness of texture, is shipped from Elgin each year. It has a market value of from \$300 to \$600 a ton. Thus it brings to that rural community in the spring, at a time when things are slack on the farms and ready cash for seed and fertilizer comes in handy, more than \$20,000.

That makes it a valuable industry and one which other sections were there are maple ridges are rapidly taking up. There has been a definite expansion in the maple products business.

"We can sell all we turn out," said Charles.

"Where do you sell it?"

Orders From California

"All over. We had 10 orders all the way from Los Angeles last year. There's the camp ahead."

The camp, a wooden structure, was

divided into two sections - bunkhouse and sugary. As you approached, the mouth-watering aroma of maple drifted over the frosty air.

William Stewart was waiting there and 12-year-old John Stewart, and Harry Smith, the hired man, and they gave you an old-fashioned welcome and took you in by the fire to get warm. In other camps through the districts other sugar crews were welcoming other visitors, because it was Sunday and there is an old Albert County custom of keeping open house at sugar camps on Sundays. Take Salt Herring

People flock to them from all over and some even take salt herring with them. The legend goes that you can eat maple sugar until you feel you can't take another bit, and then chew a chunk of salt herring and begin all over again on the sugar. We're going to try it next time we visit Mr. Stewart, whose fame as a maker of maple cream is more than warranted.

Let's watch him boil a batch. The syrup - the sap has already been evaporated to syrup in the shiny metal evaporator trays - is in a large square tank on top of a flat furnace affair. Mr. Stewart stands over it, never taking his eyes off it once it has started to boil.

## Petitcodiac Area Garden Club

The snow has melted, Spring is in the air, and we are excited that gardening season is on the horizon. Many of you may already have plants started in anticipation of another season of fresh vegetables and colorful gardens. Last year was a fantastic year and volunteers with Petitcodiac and Area Garden Club have started planning for the upcoming season.

To recap, some highlights of the 2020 season included holding workshops and seminars, building accessible raised beds, and adding a platform for teaching and an outdoor kitchen. With the Community Food Action grant from the Province of New Brunswick, we were also able to purchase gardening equipment such as garden tools, hoses, row covers, and general supplies, which will all be put to good use again this summer. Events such as the 1st Annual Community Plant Sale, 2nd Annual Community Garden Tour, and

participating in the Petitcodiac & Area Historical and Cultural Society Harvest Celebration were very successful and a lot of fun. The beauty of our community was enhanced with the establishment of the Victory Garden in Veterans Park and the planting of a Ruth Flowering Crab Tree in honor of Mayor Gerald Goguen for his inspiration and many volunteer hours.

In addition to the grant, the generosity of approximately 30 people with over 1000 hours of their time, skills, and donations was what brought everything together. It was fantastic to see families and gardeners of all ages get involved! Community Garden

We have exciting news to start off the 2021 Community Garden! In addition to the large Community Garden where we will again grow a variety of vegetables

**MARK YOUR CALENDARS! FUNDY AND KOUCHIBOUGUAC  
NATIONAL PARKS RESERVATIONS FOR THE 2021 VISITOR  
SEASON OPEN ON APRIL 22ND**

ALMA, NB, April 19 2021 - Fundy National Park and Kouchibouguac National Park will begin accepting reservations for the 2021 visitor season on Thursday, April 22nd at 8 a.m. (ADT).

Visitors can book their stay by visiting the Parks Canada website at reservation.pc.gc.ca or by calling 1-877-RESERVE (1-877-737-3783). A reservation is required prior to travelling to both national parks.

Visitors are encouraged to familiarize themselves with the reservation system in advance of the launch date. Reservations could fill up quickly and due to heightened demand, visitors are encouraged to be flexible, consider visiting during the week rather than weekends or visiting during shoulder seasons.

The health and safety of visitors, employees and all Canadians remain of the utmost importance and Parks Canada will continue to follow the advice and guidance of public health experts in offering visitor access and services this year.

It is essential that visitors follow and respect public health measures and guidelines, as well as provincial requirements to help prevent the spread of the virus. Please visit [www.gnb.ca](http://www.gnb.ca) for more information.

The Parks Canada website continuously provides detailed information on what locations are open, what visitors can expect, how to prepare for a visit and what services may be available. Visitors are asked to plan ahead by checking the website before they travel.

# ELGIN NEWS!

“Gardening is the art that uses flowers and plants as paint, and the soil and sky as canvas.” (Elizabeth Murray)

The Elgin Women’s Institute is hosting a Gardening Day on Saturday, May 29th from 1 - 4 pm. This fun event will be held inside and outside of The Hall at 32 Gowland Mtn. Rd, Elgin, NB.

Many topics of interest are planned sharing a variety of gardening presentations such as:

Seed saving,  
Vegetable gardening,  
Gardening on a budget,  
Composting,  
Gardening with kids  
Raised bed DIY demo

Special guest Susan Linkletter of Diddy Squash Farms will be sharing her gardening experiences focussing on soil. Also included is a Plant Swap featuring flowers, vegetables, house plants and perennials.

To round off your afternoon of information you will take home a healthy snack for your enjoyment.

Please check out “Elgin Women’s Institute” on Facebook for any further updates and information. You can leave a message or ask a question.

Covid-19 restrictions will apply (please wear a mask and practice social distancing). This event is provided free of charge with no need to pre-register. Watch for upcoming information on a variety of presentations and workshops to be offered.

Please plan to attend and bring a friend!

“To Plant a Garden is to Believe in Tomorrow” (Audrey Hepburn)

Our park began as an overgrown Field in the center of our community. Over the years, EEA volunteers have worked at developing this field into a central meeting spot for the local people and people from afar.

Our Park has a few pieces of playground equipment, and we are currently writing proposals for various grants to improve the playground. In addition, we would like to offer a chance to our local businesses and community members to be part of the development of this wonderful playground. We are hoping to raise \$5000.00 dollars in community donations.

To recognize your donation, your organization’s name will be placed on a donor wall that will be located at the EEA Park for community viewing. In addition, a thank you will be posted on the EEA Facebook page and the EEA webpage for all to see. Your donation can be made to Elgin Eco Association by cheque and mailed to 55 Stewart Rd., Elgin, NB E4Z 2J8 or e-transfer to [elgineconb@gmail.com](mailto:elgineconb@gmail.com). Cash donations can be made to Moranda Van Geest (756-2518).

We would like to thank you in advance for your generous donation to the Elgin Eco Association playground fund. **Thank you for being a great Community Supporter**

This news from the Elgin Eco Association will focus on our quest to raise funds for the new playground equipment. We have realized for some time that this is necessary. We are hoping for a great response this summer.

Other news to report. A few local citizens have placed ten bluebird houses in the nature preserve on April 3rd.

It was a gorgeous day and much enjoyed. We are looking forward to seeing how many of the houses will be occupied

We don't always see everything that happens when the earth wakes up in the spring. Most of the time we pay little attention to it. We feel the sun shines more, the temperature is slowly increasing. Snow is melting. With spring coming we feel a lift in our life. Something is happening. Things feel lighter and brighter. This same feeling is felt by all creatures in spring. The earth is waking up, after being dormant for months. Even during the cold winter months nature is at work. Mother bear hidden in a den gave birth to her cubs. The cubs are usually born mid January early February. Mother bear can give birth to one or even four cubs. When the snow melts and the temperature rises she will emerge from her den with her cubs. Since birth the cubs have been drinking mothers milk. Still tiny when they emerge from the den, life will be harder. So much to learn and the constant pressure of finding food. In March and April crows start building their nests. The nest building is done by both the male and female but they can also receive help from the young of the previous year. It seem to function as a mentor program. Crows do not breed until they are at least two years old or even older. It is a great benefit if you have some experience building a nest. Mother knows best. Surprising maybe is to know that owls already have layed their eggs during the month of January and February. Owls are birds that need large and old trees. The owlets stay six to eight weeks in the nest. They leave without knowing how to fly. If you encounter an owlet on the ground in the woods in the spring, it means they just fledged. They are learning how to use their legs. They will hide in shrubs and low bushes. During January and March we will hear more coyote calls.

Because it is mating season. Birds will return to their breeding grounds from overwintering down south. Slowly we humans will notice the signs that spring is coming. The trees start to bud, flowers, like crocuses, pop out of the ground. chipmunks hibernate in burrows three feet underground. Chipmunks work all summer to fill the burrow with food for winter. You won't see them until the ground is free of snow.

We know during warm days in early spring we might see honey bees flying around their home. The bumblebee queen is underground. All the bumblebees died in the fall, the queen bumblebee will hibernate and wait till spring to start a new colony. The full moon in March is called the worm moon. Around this time of year the worms will start coming out of the ground. Animals forage on the forest floor. For animals and insects it is detrimental to their survival. In early spring the first greens emerge. Every single species needs the green ground cover of the forest floor. Without these new greens, it means starvation. Our culture, trying to control everything that lives and grows, makes this type of foraging extremely hard for those species that are depending on it. Habitat loss has dire consequences. Instead of being controlled and managed, the forest needs our protection. As first nations people so correctly acknowledge, all our relations. When we are privileged to walk through a mostly undisturbed forest landscape, you realize life is, about all our relations.

## Toastmasters: For Connection and Skill Building

We sure have been learning a lot in Toastmasters lately.

Andrew, former president of Riverview Canusa Toastmasters club, has returned from some time away from Toastmasters and has come back to his roots at the Sussex club, at our last meeting he gave his ice breaker speech. The ice breaker speech is the first speech in Toastmasters' "Pathways" program, everyone starts by giving this same speech, but everyone has a different take on it. It's a five-to-seven-minute speech about you designed to introduce yourself to the club, and no matter what Ice Breakers are always a hit.

After the Ice Breaker you can really make Toastmasters what you want to make it. We've heard Sarah's research on vegetarian nutrition, Kavita working on her "Visionary Communication" Pathway has challenged us to observe our privilege, and Moranda even donned an all-red outfit to teach us about gardening from the perspective of Bonny Best, the tomato.

If you want to join a fun group of people who get together every week to

practice public speaking in a supportive atmosphere, then Toastmasters is the place for you. If you have a public speaking event coming up that you need to practice for then Toastmasters is for you. If you can't imagine why anyone would voluntarily join a public speaking club, then Toastmasters is the place for you too! In Toastmasters we take turns giving speeches, and hosting meetings, primarily for the comradery and because we all have a love of learning. When those events come up where we need to speak in public or take the lead on a project, we are glad to have our skills freshly polished so we can succeed no matter what's thrown at us.

Keep your skills sharp over the summer, come see what Toastmasters is all about. We promise we won't make you speak your first meeting (unless you want to) and can help you get set up with Zoom if you've never used it before.

## From the Desk of Your MLA

### Ross Wetmore, Gagetown - Petitcodiac

They say, 'hope springs eternal'. In fact, they have been saying this since English poet Alexander Pope wrote it in one of his works in the 1700's. This spring we need hope more than ever.

We need hope of a return to more normal life and hope that we continue to avoid the worst of COVID'S devastating potential.

We need hope that those whose lives have been disrupted by the pandemic will find peace and comfort and we need hope that our business people will weather the storm and make a full recovery.

We need the hope that is brought by spring.

It seems year after year our New Brunswick springtime follows a regular pattern of ice breakup, maple syrup season, flooding, and fiddleheads.

Each year we hope for the ice to go out gently, the syrup to flow freely, the water to stay below flood stage and finally, an abundance of fiddleheads. For spring 2021 it looks like so far, so good.

I believe we breathed a collective sigh of relief when, as hoped, flood season came and went without catastrophic results.

It's at this time of year my thoughts turn to our families, friends and neighbours' in the agriculture industry.

For them, spring is a time for calving, lambing, and preparing the land for cropping. It is a time of hope.

Our farmers work hard, and we are beyond lucky to have them.

One of the results of COVID has been a new interest and appreciation for our food supply, how much is locally produced, and what possibilities exist for expansion.

I can attest from my time as Agriculture Minister, our food and beverage sectors have plenty of room to continue growing in new and differing ways.

We are blessed in our province to have such a wide variety of traditional crops; potatoes and root vegetables, field crops, apples and small fruits, cranberries and blueberries form a solid foundation for our ability to feed ourselves.

I hope in the future we will witness more growth here in our riding whether in food growth and food production or in our ever-growing beverage industry. Consider that New Brunswick's agriculture sector employs over 13,000 New Brunswickers and the value of food and beverage shipments exceed \$1 billion at present. How long before we can double these numbers?

While our farmers are busying themselves with those tasks that present themselves each year, our Class of 2021 university students are preparing themselves for, what will be for many, a once in a lifetime occurrence. I want to wish them all the best as they write their final exams and look beyond schooling to the next chapter of life.

Thanks as always and please be kind.

A new community food market is opening at 55 Main Street this summer and we welcome everyone to visit and become involved in this exciting project. The Pantry Community Food Hub is a not-for-profit initiative supported by The Petiscodiac Mennonite Church. The store will feature products from local farmers and food producers, an affordable food market with healthy food for the community, and offer workshops and demonstrations to teach food production, preservation, and how to reduce food waste.

The Pantry Food Hub aims to bring the community closer to the local farmers who grow their food, and would like to encourage everyone to grow, preserve, and process food, to improve food security and build a more resilient community. According to Canada's Food Prices Report, families are expected to pay \$695 more on food this year. The Pantry Food Hub will work towards solutions to help families with these rising food costs and to offer healthy and affordable options for everyone in the Petiscodiac and surrounding areas.

The Pantry promotes healthy eating, education, and reducing food waste. Food in landfills produces methane gas, a more harmful greenhouse gas to the Ozone than carbon dioxide. The food centre will focus on food recovery and making the most out of all food donations received.

The food hub is currently accepting applications from farmers and producers who would like to sell and market their products through the store.

The Pantry Food Hub also requires volunteers to work with us. Volunteering can be as easy as growing extra food in your garden this summer to donate, helping with larger projects such as harvesting in groups, food processing, and donating time as an expert for educational demonstrations and workshops.

To find out more or apply as either a business or volunteer write to [info@pantryfoodhub.com](mailto:info@pantryfoodhub.com) or visit Facebook, <http://www.facebook.com/pantryfoodhub>.

## “No Mow May”

This May, the local non-profit environmental group, the Petitcodiac Watershed Alliance (PWA) is sharing a campaign to help pollinators and manage storm water management with communities in the Petitcodiac River watershed, which includes the beautiful Village of Petitcodiac! The “No Mow May” campaign is to encourage all people in the watershed to take a non-mowing or less mowing approach to lawns and ditches to help our pollinator populations during a critical season, May. Spring flowers can provide an early source of nectar for pollinators such as bees, hummingbirds, butterflies and beetles. Allowing lawns and ditches to grow during the spring month has now offered huge benefits to pollinating species. This includes our native bee and butterfly populations that have suffered a drastic decline in recent

decades. This campaign also mitigates the impacts of storm water runoff during the spring melt that normally occurs in May. The PWA observes each year during our water quality monitoring project, the quality of our freshwater streams and rivers impacted when the snow melts. Naturalized lawns and ditches for the month of May can help prevent pollutants and debris from entering freshwater ecosystems directly. The roots of the plants will purify and release water to seep through the soil. Plants that can grow unencumbered will absorb more rain and snow melt that will fill our groundwater reserves used by household wells. So please leave the flowers growing in your lawn in May. Don't worry about the hard work of mowing for a month. Get to know your lawn as a natural space, and watch the bees and butterflies visit you this spring!

## Always in Fashion

By Gloria Scribner

Out of our hands and into His heart  
Those problems we don't understand  
Give them to God and right from the start  
They'll go straight from our heart to His hands

Oh, the relief when we give Him our cares  
And relinquish the hold on our woes  
Oh, how much lighter the path that He shares  
And how comforting, knowing He knows

When faith is illusive and troubles arise  
We often forget there's reprieve  
In looking to heaven through world-weary eyes  
And whispering “Lord, I believe”

So give Him your teardrops, for He has compassion  
His arms are a safe place to be  
Surrender your will, for it's always in fashion  
His answer is “Child, lean on Me”.

**Kent Hoar**

Candidate for Council - Village of Petitcodiac

Hi, my name is Kent Hoar and I am running for Petitcodiac Village Council in the upcoming Municipal election.

I was born and raised in Petitcodiac, (Class of 92 PRHS). I'm very fortunate to live, work and to be able to raise my daughter, Myah in such a caring, supportive community.

I have proudly served this community as a member of the Petitcodiac Fire Department for over 18 years as an active member and now as Lieutenant.

Having received a Kidney transplant in 2000. I'm also a proud advocate of the Organ and Tissue donation program. During this time in my life it was amazing to see our community at its best giving so much support and caring to me and my family during that time.

As our community continues to grow I think it's important for us to share our caring and welcoming ways to others.

For a small community, we have a lot to offer, from a beautiful golf course, great churches a fantastic downtown business district, great doctors, many different recreational experiences, all at our finger tips.

All reasons why I'm asking for your support on May 10th, with advance polls on May 1 and May 3. Please vote for Kent Hoar for the position of Petitcodiac Village Council.

**To My White Lilac**

By Gloria Scribner

It's early yet for lilacs, but I can smell them in my mind and picture the waving tendrils against my back window - white lilacs waving to me through the pane, as much as to say, "We're back". And so they'll be as in years before when I gathered cluster from the illusive bough - dancing above my head like angel wings waving, and when jumping didn't seem to do the trick I'd climb the stairs to my daughter's bedroom window and reach out to collect the captured blooms. The tree was tall 40 years ago

and reluctant to spread her roots with new shoots, as did the purple hedge. Almost everyone who came to visit dug up little purple lilacs to transplant in their own yards, and still they spread, overwhelming the view to the apple orchard.

After years of searching and digging I finally captured a white lilac sprout, I was sure would survive. I dug around the little shoot to make sure it had healthy, hungry roots. I gently stood it in a piece of fertile soil, where the sun and shade and gentle breeze could nurse the tiny sapling from infancy, to youth, and finally to motherhood. And I saw one June morning, little buds shyly peeking from among the leaves. At long last white lilac you have grand-children. I knew the feeling.

Still the old tree blooms each spring. As tall now as the peak of the farmhouse roof. I wonder if she remembers the

nests the songbirds built in her arms over the years and how she rocked them gently, hidden among her leaves as the soft spring breezes passed. I wonder if she recalls the giggles and "child-talk" of the tiny boys making pretend roads for their little cars or the young girls playing house beneath her limbs where it was cool in the shade of a Sunny July.

I wonder if she recalls the strain on her "being" as the youths tore off straight stems and pliable limbs for their bows and arrows, or the climbers that answered the age-old call of youth as

instinct bid the "climb, climb higher and higher". Yes white lilac, you served us well. Time and again we rejected the advice of the elders, the know-it-alls, and the experienced to "chop down that bush; lilacs roots can and will wend their way through your stone celler walls, even cement". Well, sorry guys, but you see, you're too late with your advice, for long ago that lilac tree wended its way into my heart and bless her soul (yes I like to believe she has one), even if it's just an extension of my own will. But as I look out my back door and realize her aging limb is bent across my back doorstep so that the door has now become only an emergency exit, I smile because on the end of that limb is a cluster of buds, waiting to offer me the most beautiful bouquet a woman ever received, and I have the vase ready. "Welcome back, white lilac!"

**Even the Horses like to go to Sugar Camps**

The syrup bubbles, then foams toward the top of the tank.

"It's going to boil over," you say. "Watch", says Mr. Stewart.

He drops a little piece of butter - not enough to cover your fingernail with - into the centre of the tank.

The foam recedes.

Mr. Stewart dips a special thermometer into the boiling liquid and looks at it and shakes his head. "Another couple of minutes."

A couple of minutes pass and he calls his sons. They carry the tank out and put it down on the snow to cool. Before they do so they pour some of it out on the white snow and it hardens into chewy maple candy and everybody gathers around to help themselves.

You talk and laugh while the tank cools, then the Stewart boys carry it inside again and get after it with wooden "beaters" that look like axe handles. One of them works from one end of the tank and one from the other. All of a sudden, it begins to harden and turn white.

There isn't any time to be last. It has to be molded before it gets hard - and it gets hard quickly once it starts. They paddle it out into mounds. The maple cream is made. And you get busy sampling it.

"How do you come to make such good maple cream?" you ask Mr. Stewart.

Family Skill

"Well my father made it. I used to watch him just like young John here" - 12 year-old John had watched Mr. Stewart boiling the syrup - "watches me. And my father's father, and old Scot who settled here after he went through the Miramichi fire, used to make it before my father again. It sort of comes down in the family."

"Do you put anything in the maple cream to keep it so white?"

"No that's what makes it so white. You don't put anything into it you can keep out - except sap."

The sap comes out of the trees like clear water. It has a slightly sweetish taste. The sugar hands go through the woods gathering the buckets and emptying them into large cans, like milk cans, which are taken to the sugary by horse and sleigh. The horses are a big help. They seem to know just where the sugar hands will re-appear from the woods, and they have a faculty for moving along the road and stopping at the right place.

They get their reward. Because, when mealtime comes and the hands are filling themselves with mountains of flapjacks drenched with maple syrup, the horses are treated to oats - likewise drenched in maple syrup. It's a great life - life in a sugar camp.

#### MOTHER'S DAY BREAKFAST

Glass of Juice, Toast or Bagel or toasted Waffle, Jam or Jelly,  
Slice of Ham, Scrambled eggs, Tea or Coffee

#### SCRAMBLED EGGS FOR ONE

Break 2 eggs in a bowl and season with a bit of salt and pepper. Using a fork, slightly beat the eggs until the whites and yoke are blended.

Melt 1 tablespoon butter in frying pan, over low heat and pour the eggs in.

Keep the heat low, stir the eggs to make chunks, while doing this add another tablespoon of butter, mixing it into the eggs.

When the eggs are in small moist curds remove from heat, Serve at once

## Petitcodiac and District Figure Skating Club Our Year in Review

Petitcodiac and District Figure Skating Club skaters have wrapped up their 2020-2021. It has been a challenging season due to COVID and we were unable to hold our annual ice show for a second year in a row.

We held an on ice year end ceremony on March 31st where all our skaters received certificates of their achievements. During this, there were two special achievements for our skaters. Katelyn Wood will be graduating from Petitcodiac Regional High School this spring and received a gift from the club. Katelyn - we wish you all the best in the future and good luck with your university studies! Breanne Wesselius received the Skills Gold Pin award from Skate Canada for passing all her skating skills tests. Well done Breanne!

We would also like to congratulate our skaters on the many Skate Canada tests passed this year. Many of the tests passed were 'Passed with Honours'! Well done - we are very proud of each and every one of you.

And finally SkateNB hosted a virtual competition on April 17th. This was

a new experience for all of us and we would like to thank SkateNB for doing this to give our skaters the opportunity to compete this year. The skaters were all filmed skating their solos in their home clubs, then SkateNB put in a tremendous amount of work to pull it together and then streamed the competition on Saturday April 17th. Judging of the events actually took place live (virtually) during the stream. The archived videos are available through DailyMotion.com.

Our club had two skaters who took part in this competition. Breanne Wesselius competed in STAR10 Women Free skate and won gold with a score of 25.59 and Charlotte McCully competed in STAR5 13 and over Women Free skate and won bronze with a score of 14.65. Congratulations Breanne and Charlotte! Thank you to all our skaters, parents, coaches, arena staff, Village of Petitcodiac and SkateNB who have all persevered during a challenging year to ensure that our kids were able to skate. We are looking forward to our next season. See you in the fall!

Malin Smith (left) and Breanne Wesselius (right) presented Katelyn Wood (center) with her grad gift.

## Life insurance

### EXPLAINED

Life insurance is a tool that helps you protect the people that you love most. It can help ensure that what you've worked hard to build will continue to support those you care about after you're gone. It's about financial security, for you and for your family.

**Protect your family's future. I can help.**

## May is Cystic Fibrosis Awareness Month

Cystic fibrosis is the most common fatal genetic disease affecting Canadian children and young adults. There is no cure. It is a multi-system disease that attacks the lungs and digestive system. There are more than 4,370 Canadians living with cystic fibrosis. (Three in our surrounding communities.)

Thanks to investments in CF research and care, there is hope. Canadians are living longer, healthier lives than ever before. Today 61.5 percent of Canadians with cystic fibrosis are adults, but of the Canadians with CF who died in 2019, half were under the age of 33. This is far too young.

The COVID-19 pandemic has made a huge impact on us. Over the past year, our method of fundraising changed. Our Walk to Make Cystic Fibrosis History went to a virtual format. Other events were cancelled completely. Revenue dropped off but our goal to #End CF remained the same.

The 2021 theme for the year is Go Further. What is our chapter doing this May to Go Further and how can you be involved?

1. We are registered for the Virtual Walk (walk.cysticfibrosis.ca) under New Brunswick, Riverview. We encourage you to join the fight against cystic fibrosis by participating in the Go Further for Cystic Fibrosis Virtual Walk.

2. We are holding a 50/50 raffle draw. Christina McCully (christinamccully2005@gmail.com or 506 756 4617) or any member of the chapter has tickets for sale until May 30, the day of the draw.

3. We have written our MLA's encouraging them to promote the availability of Trifatka once it is approved for use in Canada. We encourage you to join us by writing a letter to your MLA as well.

4. We are holding an on-line auction the second week of May. Local businesses have donated to the auction so please check our facebook page @ Spring into Auction for Cystic Fibrosis. We will accept other donations, adding them to the auction up to May 07.

5. We have set up a Cystic Fibrosis Account at the Petty Redemption Centre. Just let Dean know you are donating your recyclables to Cystic Fibrosis.

Your support in any one of these areas will help raise critical funds needed to find a cure or control for cystic fibrosis, and will continue to help Canadians who live with this fatal disease.

## *Comedy at Large*

by Laurie Blanchard Salisbury, NB

The idea of a walk-in closet sounds frightening! If I'm ever sitting home and a closet walks in, I'm outa there in a hurry !!

A lady in her mid 70's, told me that she and her husband still enjoy going for walks on forest trails. She goes on to say that her husband is a slow walker so she always walks behind him and if he's not going at a good pace, she will tell him .... walk faster Henry, the vultures are beginning to circle.

Hundreds of years ago, when a neanderthal man first threw up, what did he think? What did he say to his friend? Hey Cletus, remember that yak we ate yesterday? Look !

In a AACA antique magazine, a man had totally restored a 1957 Chev Bel-air Nomad wagon to show room condition. His name --- Joe Wurm. Can you imagine the teasing he must have had on that last name over the years? For instance, if he found himself in a discussion about politics with a group of friends and he expressed his opinion on that topic, someone may have commented ....good heavens Joe, you just opened up a can of er ...WURMS! So then, what would be his come back? Perhaps ... that's OK guys, I'm going fishing tomorrow and maybe I'll get a bite!

At a public washroom, a lady noticed that the doors on the cubicles were cut rather high, about 2 feet from the floor. But what really caught her eye was the graffiti written on one of the doors that read ...BEWARE OF LIMBO DANCERS !! ?She added this .... I felt somewhat uneasy as I sat there on the throne.

## OBITUARIES

**Owen Gilmore**  
1939 - 2021

Owen Gilmore was born in Petitcodiac on March 6, 1939; he was the son of the late Owen E. and Edna Jean (Saunders) Gilmore. He passed away peacefully at the Jordan LifeCare Centre on Saturday, April 17, 2021.

He will be dearly missed and lives on in the hearts of his children, Esther Gagnon of Calgary, Elaine Gilmore of Intervale, Mark Gilmore (Tracy) of Petitcodiac, Ellen Gilmore (Shayne) of Calgary, Marsha McQuinn (Sean) of Killams Mills, and honorary daughter, Carol Brown Penney (Terry); grandchildren, Dominique, Matt, Chris, Kayla, Kevin, Bailey, Shae, Wyatt; great grandchildren and many nieces and nephews; his siblings, Sterling of Elgin and Gertrude-Jean Whittier (Alfie) of Sherbrooke, Quebec. Predeceased by the mother of his children, Marilyn (Lounsbury) Gilmore; sisters, Joyce and husband Doug Rice, Clara and husband Bill Allen and sister-in-law Doris Gilmore.

Owen was an Electrician by trade and owned his own company "Gilmores Electric" for many years, mentoring and partnering with his son Mark. He was an esteemed member of the Petitcodiac community, volunteering with Minor Hockey and the Figure Skating Club for many years. Owen was an avid NASCAR #3 fan and friends and family will fondly remember road trips to the races. In the summer, he could be found playing baseball with The Boys and was known for his "legendary spinner pitch". He played well into his sixties. In the winter, Owen was a permanent fixture at the arena, coaching with his son, Mark and supporting Minor Hockey, as well as many hours watching his daughters figure skate. He loved watching the kids play hockey and basketball, often taking on the role of taxi and spending countless hours on the highway getting to multiple games in a single day. Owen holds the hearts of many of his kids' friends who considers him an Honorary Father. The Gilmores home was always open and changed many lives in doing so.

**Ferne Stonham**  
1920 - 2021

Ferne Alexandra Stonham, 100, formerly of Riverglade, NB passed away just two months from her 101st birthday, at her home at the Ridgewood Veterans Wing, Saint John, NB on Sunday, April 11, 2021. Born in Chipman, NB she was the daughter of the late Warnock and Annie Garland.

Ferne was a longstanding member of the Highfield Baptist Church, however in recent years she attended the former Riverglade Baptist Church (Cornerstone Community Church). She was a member of the Salisbury Legion, and served with the Women's Royal Canadian Naval Service (WRENS) Medical, in the Second World War. Ferne loved crafts, knitting, and cared for and enjoyed many of nature's smallest creatures; taking cats into her home and feeding the birds. Survived by her nephew, Paul (Robin) Johnson of Florence, South Carolina, US; special friends, Daniel and Irene Ferguson, and Margaret Hodgson, who always made themselves available to care for Ferne, and genuinely enjoyed her company.

## OBITUARIES

**Richard MacPhee**  
1954 - 2021

Richard Claire MacPhee, 67, of Fort Saskatchewan, AB passed away Saturday, April 10, 2021 at home with his wife by his side, after a lengthy battle with lung cancer.

Born in Moncton, NB on August 11, 1954, he was the youngest son of Dora (Etter) MacPhee and the late Cecil MacPhee (2006), and beloved husband of Pamela Whispell MacPhee who cared for him as his nurse during his illness.

Richard has lived and worked in Alberta since 1977 but he always said NB was home. He worked in the woods, as a truck driver, and in the oil sands over the years. He enjoyed socializing with family and friends - telling jokes always with a smile and a laugh. Rest in peace dear brother.

In addition to his mother and wife, Richard is survived and sadly missed by his son, Justin MacPhee; siblings, Pauline Munro, Nancy Payne (Dalton), Gary MacPhee (Lou), Susan Chambers, Kathy Smith (Ron); many nieces and nephews.

Besides his father, he was predeceased by his daughter, Malanie MacPhee (2020), and brother-in-law, Maurice Chambers (2018).

Memorials to the Canadian Cancer Society would be appreciated by his family.

## Petitcodiac Area Garden Club

and herbs to share with SPOT, seniors and other community groups, we have garden plots available to any community member. Currently we have 11 ground level plots (10' x 40') and 5 accessible raised beds. We are very happy to offer these at no cost, with the exception of a \$10 key fee that will be refunded when you return your key at the end of the season. Plots will be tilled as soon as the ground has dried sufficiently, and gardeners will have access to all of the equipment to keep their garden in tip top shape.

If you are new to gardening our volunteers have 670+ years of combined gardening experience that they will enthusiastically share with you! To reserve your plot, please stop by the Petitcodiac Village Office to get your keys. All plots will be assigned on a first come basis.

In addition to getting the Community Garden ready for planting, plans have begun for the first of our events. Mark these dates on your calendar:

May 5, 10:30 am: Celebration at Veterans Park commemorating the 76th Anniversary of the Liberation of the Netherlands.

May 29, 10 am - 12 pm: 2nd Annual Plant Sale at the Community Garden. Look for us on the Community Yard Sale map that will be coming out soon and plan to come early as last year plants went very quickly. We will also have our free Seed Library available.

July 25, 1 pm - 5 pm: 3rd Annual Petitcodiac & Area Garden Tour. Contact Cathy Drury or Karen Hall-Middleton for information on showcasing your gardens.

Please be assured that for your safety and well-being that all COVID-19 guidelines and requirements will continue to be followed this gardening season. For the latest news and upcoming events such as the planting of a Butterfly and Pollination Garden, join our Facebook pages Petitcodiac and Area Garden Club.

For more information on any of our activities or to join our team of volunteers, call Cathy Drury 756-2068 or Karen Hall-Middleton 756-8824.

### THE LOST DUCK

Mother Duck planned to clean the nest. She said to Father Duck, "can you watch the ducklings alone while I clean the nest?"

Father Duck quacked, "Indeed, indeed."

That is a simple task."

"There are so many of them, that taking care of them is not an easy thing to do," warned Mother Duck.

But Father duck laughed, and waddled away, calling to the ducklings to follow him.

"Dear me, there are a lot of them," he thought. He began to count them. But they moved around so fast, that he had hardly finished counting them when he had to start all over.

"There's Peter and Carrie, Oscar and Harold. There is Peter. But I counted Peter. There is Oscar. But I counted Oscar! Dear me, I had better start over."

When he finished, Mother Duck came over to him. "Are they all there?" she asked.

"Oh, yes," said Father Duck.

"Where's Archie?" asked Mother Duck.

"Archie? Oh, Archie. I forgot him."

The big ducks and the little ducks all scurried around trying to find Archie.

They found him at last. He was keeping himself warm, nestled with the little yellow chicks under Mother Hen.

Father Duck said, "I am all worn out from taking care of my big family."

A reminder that the lighting of ANY open fire to dispose of dry grass, brush, hay, straw, leaves, buildings, construction materials, automobiles or garbage in the municipality is PROHIBITED. Any fires must be in approved appliances only. Salisbury Fire Rescue reserves the right to order any fires that are not in compliance with Salisbury's Fire By-Law (By-Law No. 48) to be extinguished, and are authorized to issue tickets as they may deem necessary to enforce this By-Law. By-Law No. 48 can be read in its entirety at [www.salisburynb.ca](http://www.salisburynb.ca) (under the tab Inside Your Village Office (By-Laws)). This Fire By-Law also follows the direction of Provincial burning advisories/bans.

### **SAVE THE BEES! GIVE A "NO MOW MAY" A TRY!!**

Something to consider for your lawns at home?

Petitcodiac Watershed Alliance, among other organizations all over the world, is promoting a concept they're calling "No Mow May!"

It is an effort to help provide food and resting places for bees and other pollinator species.

### **COVID-19 IMPACT ON SUMMER EVENTS IN SALISBURY**

Although official decisions have yet to be announced, there is a very real likelihood that Village of Salisbury **Canada Day** and **Community Days** celebrations this Summer will once again be held virtually (online) for the most part due to government public safety regulations that are directly related to the ongoing COVID-19 pandemic, as was the case in 2020. The Village of Salisbury will keep you posted.

Meantime, all Village of Salisbury departments remain open for business, but due to the pandemic there are access restrictions in place to ensure physical distancing. Face masks are also mandated.

### Message from the Director of Recreation and Wellness:

My name is Jarrett Crossman, and I am the new Director of Recreation and Wellness for the Village of Salisbury. I am 25 years old and from Petitcodiac, New Brunswick! I graduated from Petitcodiac High School in 2014 and then went on to get my Bachelor's Degree in Recreation & Sports Management as well as a Minor in Business from the University of New Brunswick in Fredericton. Since graduating in 2019, I have been working in the Sport and Recreation field and I have enjoyed every minute of it.

Throughout my life I have always had a passion for sports and recreation activities. I enjoy playing all kinds of sports, being outside, and spending time with family and friends.

I am excited for this new opportunity as the new Director of Recreation and Wellness for the Village of Salisbury and looking forward to helping this community grow!

I want to take the time to acknowledge the former director, Holly McNeil, for all of her hard work and dedication to the Village of Salisbury throughout the years. Holly has done a fantastic job implementing and delivering recreation, leisure, sport and wellness initiatives to all ages in the community! Thank you for all you have done, Holly, and as the new recreation director I will continue to build on what you have left behind.

I am currently in the office Monday-Friday from 8:30am-4:00pm. Feel free to stop in and introduce yourself if we haven't had the chance to meet already! I am looking forward to meeting new people and working closely with the Village Council as we continue to grow our Department of Recreation and Wellness!

If there are ever any questions or concerns regarding our programs, events, or would just like to schedule a time to meet, please let me know!

Thanks,

### Two more Municipal Candidates for Salisbury

#### Sarah Colwell

I am a proud mother, partner, daughter, sibling, and friend. I have 3 beautiful children (12, 13 and 14); my fiancé and I are especially grateful to raise our young family in the village of Salisbury. Although neither of us originated from Salisbury we choose Salisbury as the place to lay down roots and now years later realize we would never want to raise our children anywhere else.

You have likely passed me walking the trails and streets of our village or possibly interacted with me at the gym; I am personally committed to living an active and healthy lifestyle. In addition to being active I have many DIY projects on the go at any given time at our family home on Peter Street. I believe that in these times of stress mental health is paramount and I find these past times keep me grounded.

I am passionate about our community and its future because it is my family's future as well. I have had the pleasure of volunteering for the SMS breakfast program as well as sitting on the Salisbury Parks and Leisure Action Committee. I've managed and continue to manage various sports teams as well as volunteering for community events. I am the current President of the Salisbury Petitcodiac Flyers Minor Baseball Association; Secretary for the Salisbury Petitcodiac Minor Basketball Association and Chair of the United Way Committee (at my current place of employment) where I was named campaign coordinator of the year in 2020.

As our community continues to evolve, and our demographic continues to change, I want to put conscious effort into understanding what our community needs now. In particular, what are the needs of our young families, our growing population and our infrastructure. What does the future of Salisbury need and how do we build on the successes of our elder population?

"There is a reason the windshield is bigger than the rearview mirror your future matters more than your past." - Max Lucado

I am passionate, committed, diverse and I will bring great energy to the

table. I have always worked to make our community a better place and that is what I intend to do as a prospective councillor.

#### Douglas Hamer Candidate for Council Village of Salisbury

I am offering my name for the position of councillor in the upcoming municipal election in the Village of Salisbury. I see a tremendous future for Salisbury and wish to be part of the council team to make it happen.

My background includes 37 years with Riverview Fire Rescue and retiring in 2011 as Fire Chief. I have served on a variety of organizations including Past President of the New Brunswick Association of Fire Chiefs, former board member Food Depot Alimentaire, current treasurer of the Wesleyan Union Cemetery and 7 years as a Volunteer Captain with Salisbury Fire Rescue. I hold a Diploma in Public Administration from Dalhousie University.

Housing for seniors in apartments or semi detached homes, rental or single family housing for young families are in big demand. The replacement of our 70 year old Elementary School is long OVERDUE. These takes a strong council effort to promote and encourage developers.

The Provincial government's announcement of "municipal reorganization" appears to be creating the potential for serious tax increases... something I have serious concerns about and I think the majority of citizens of Salisbury do too.

I ask for your support on May 10th to be elected to a council seat. My phone number of 872-3922, email address Doug1075@gmail.com.

List of all Candidates for the Municipal election for Salisbury is on page 22

## Toys for Big Boys Ltd.

## Releases Photos of New Harley-Davidson® Dealership

Toys for Big Boys Ltd. releases renderings of their new Harley-Davidson® dealership located in Moncton's downtown core.

March 31, 2021 (Moncton, N.B.) - Toys for Big Boys Ltd. is pleased to release sneak peek at their new Harley-Davidson® dealership set to open in the Fall of 2021 at 1809 Main Street in Moncton, New Brunswick. In the company's 54th year of business, we're thrilled to be opening this second location.

"These renovation plans of our new Harley-Davidson® dealership have been months in the making and I am excited to share these finalized renderings," says Larry Northrup, President of the Toys for Big Boys Ltd. "I am looking forward to bringing this iconic brand to Moncton's downtown core later on this year."

Toys for Big Boys Ltd. was founded by Fred Northrup in 1968 in his private home, and has since grown into one of Canada's longest running motorcycle and off-road recreational dealerships. The company's move to 633 Salisbury Road in 1970, led to the company's success, where Larry Northrup, Fred's son, began working as a young boy and assumed the General Manager role in 1995. Toys moved into a new facility on the same property in 2006, Fred passed away later that year, and Larry assumed the President role. The story of Toys for Big Boys Ltd. could be seen as one of a father-and-son, but they always shared the belief that Toys would be nothing without its amazing team.

## 2021 Salisbury Beautification Tree Campaign

The gift of a tree is a wonderful way to honour or remember a loved one, to commemorate a special event such as an anniversary, birthday, or Mother's or Father's Day. Some families may choose to plant their own 'family' tree or local businesses may wish to participate by sponsoring a tree. Over the past four years, we have planted over 40 mature trees along Main Street, Douglas Street and throughout the village. The deadline for ordering a tree this year is June 27, 2021. Trees will be planted late summer and we will have a tree dedication event in early fall (depending on COVID

19 restrictions at that time).

If you would like more information about ordering a commemorative tree, please call Karen Stewart 372-9275 or email karenstewart0909@gmail.com

## Salisbury and Area Lions Information Update.

Happy Spring from your Salisbury and Area Lions Club. It has been over a year since the Pandemic hit, but your Lions Club has been busy and is looking forward to serving the community. Let me share what we have been doing. Over the winter several Zoom meetings were held to attend to business that had to be attended to such as paying bills. Over the fall and winter, we held several drive-through breakfasts, always following Isolation rules. Lions prepared and laid down a new floor which looks great. Big thank you to Lions Dwight Mann and Rod Spirrits for their Leadership and knowledge allowing the Lions to lay the floor. The Lions are planning to run the canteen at the Motor Cross Track this spring and summer. The first night for the track will be May 5. Our next event will be our annual Salisbury Lions Club 4-Wheeler Draw Friday May21,2021. Tickets are still \$100 and will follow the same process as last year. Watch for a detailed notice very soon. We are presently planning to open the Salisbury Lions Pool again this summer. Your Lions Club has been following all Covid Safety rules and we hope to return to our Bingo when it is safely permitted.
